**Re: Pine View Estates Underground Injection Control Permit**

Dear Mr. May:

This letter is to inform you the United States Environmental Protection Agency, Region 9 (EPA) has completed the administrative review of your federal Underground Injection Control (UIC) permit application for Pine View Estates' wastewater treatment systems. Based on our review, we consider the application to be administratively complete. The technical review, which evaluates the information you provided for your permit application, can now proceed. Additional information, and clarification of previously submitted information, may be requested during the technical review.

Upon completion of the technical review, and as required by federal UIC regulations, the draft UIC permit will be open for 30 days of public comment. After all the public comments are addressed, a final permit will be issued and the wastewater treatment systems at Pine View Estates can operate in compliance with the UIC regulations.

Please call Eric Byous at (415) 972-3531 if you have any questions regarding the permit application.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Albright".

David Albright  
Manager, Ground Water Office
